Approve a request on my Microsoft Authenticator app

Use a verification code from my mobile app

Text +XX XXXXXX45

Call +XX XXXXXX45
2 Multifactor authentication modes

Before selecting one of the available modes, discover each of the methods of verification.

a Approve a request on my app Microsoft Authenticator

1. Select this method.

2. This message appears on your computer screen.

3. In your app Microsoft Authenticator installed on your cell phone, click on "Approve".
b Use a verification code from my mobile app

1. Select this method.

2. A verification code is sent to your app Microsoft Authenticator installed on your cell phone.

3. Enter this code on your computer.
Verification via Text

1. Select this method.

2. You receive a Text on your cell phone, enter this code on your computer.
Verification with your phone

1. Select this method.

2. A voice server calls you. Stay available in order to approve the connection request.

You can now select your favorite verification mode. It will remain saved for future connections, but you can change it at any time if you wish.
